

METHOD K9 INSTITUTE

Tuition Pricing & Payment Plan Terms (With Enrollment Deposit)

1. How Our Pricing Works

Method K9 Institute offers one program price with three ways to pay it. The amount you pay depends entirely on the payment option you choose — there is no interest rate, finance charge, or APR applied to any plan. Each option below is a separate, complete price for the program, disclosed to you in full before you enroll.

Every payment plan starts with a flat \$47 enrollment payment, due when you enroll, followed by equal monthly payments for the remainder of the term. This starting payment is not a fee or a down payment on interest — it is simply your first payment, and it is in addition to the number of monthly payments listed for your plan. Spreading payments over a longer period costs more in total than paying in full or paying over a shorter term, because a longer payment plan requires us to extend access to instruction and support over a longer period of time before we have been paid in full.

2. Pricing by Program

Each program below has one full price, with the option to pay in full or spread payment over a longer term at the cost described above.

Standard Certification — \$2,995

Payment Option	Deposit Due at Enrollment	Monthly Payment	Total Program Price
Pay in Full	—	—	\$2,995.00
12-Month Plan	\$47.00	$\$277.00 \times 12$	\$3,371.00
24-Month Plan	\$47.00	$\$167.00 \times 24$	\$4,055.00

Level 1 + 2 + 3 Bundle — \$8,485

This bundle includes all content and instruction from Levels 1, 2, and 3. It does not include Level 4, which requires an in-person visit and is intended for students — often located outside the United States — who want the full course content without the in-person component.

Payment Option	Deposit Due at Enrollment	Monthly Payment	Total Program Price
Pay in Full	—	—	\$8,485.00
24-Month Plan	\$47.00	$\$397.00 \times 24$	\$9,575.00
36-Month Plan	\$47.00	$\$267.00 \times 36$	\$9,659.00

Master Level Certification — \$12,280

Payment Option	Deposit Due at	Monthly Payment	Total Program Price
----------------	----------------	-----------------	---------------------

	Enrollment		
Pay in Full	—	—	\$12,280.00
24-Month Plan	\$47.00	$\$577.00 \times 24$	\$13,895.00
36-Month Plan	\$47.00	$\$387.00 \times 36$	\$13,979.00

3. No Credit Check

None of our payment plans require a credit check or credit application. Enrollment eligibility is not based on credit history.

4. How Course Content Is Delivered

Program content is organized into modules and released on a drip schedule tied to your payment plan. The total program content is divided evenly across the number of payments in your plan — for example, on a 12-month plan the program is split into 12 modules, with one module unlocked per payment; on a 24-month plan it is split into 24 modules; on a 36-month plan, 36 modules. Access is tied directly to payments made, not to how much time has passed since you enrolled:

- Each time a payment is successfully received, the next module of program content is unlocked and made available to you.
- If a scheduled payment is missed, no further modules are unlocked until the account is brought current. Modules you have already been given access to remain available to you.
- There is no late fee, penalty, or additional charge for pausing. You may resume your payment plan and continue unlocking modules at any time — next week, next month, or next year — picking up exactly where you left off. You will never have more modules unlocked than the number of payments you have made.

This structure means you are never paying for content you have not yet received, and we are never withholding content you have already paid for.

At this time, our course platform does not yet support unlocking an individual module ahead of your regular payment schedule — this capability is being actively developed. If you would like to move through your program faster than your current plan allows, contact us directly. We can send you an invoice for your remaining balance, and once that balance is paid in full, we will unlock the remainder of your program for you.

5. Student Toolbox (Level 1 Certification)

Every program that includes Level 1 certification (Standard Certification, the Level 1 + 2 + 3 Bundle, and Master Level Certification) includes a Student Toolbox with an approximate \$500 retail value. If you pay in full, your Toolbox ships once your program begins. If you are on a payment plan, your Toolbox ships once your cumulative payments reach \$500, or by your 5th payment — whichever happens first.

6. Certification Requirements

Completing all program content gives you full access to the instructional material, but certification is issued only once your program is paid in full. If your payment plan is paused before the final payment is made, you retain access to all

content already unlocked, but you will need to complete your remaining payments before you are eligible to apply for and receive your certification.

For programs that include more than one certification level (such as the Level 1 + 2 + 3 Bundle), content access and certification are governed separately. As you make payments, content for each level unlocks in order — including content for a later level (for example, Level 2) — regardless of whether you have completed or passed the certification for the level before it. Being able to view unlocked content is not the same as holding, or being eligible to apply for, certification in that level. To advance, you must complete and pass certification for each level in order: you must complete and pass Level 1 certification before you may apply for Level 2 certification, and you must complete and pass Level 2 certification before you may apply for Level 3 certification, and so on. This sequence applies regardless of how much content has been unlocked or how many payments you have made.

7. Payment Processing

Monthly payments are processed automatically through our course platform, using the payment method you authorize at enrollment. You will receive notice of any missed or failed payment. It is your responsibility to keep your payment method current to avoid a pause in module access.

8. Questions

If you have questions about your specific payment plan, total price, or program access at any point, contact Method K9 Institute before enrolling or at any time during your program.
